

Snapshot of Jesus' Incarnation to Ascension

The first thirty years of Jesus Christ's life in the flesh are only described by the events that God gave us in the Scriptures. We have the announcements of Christ's birth, His birth, the visit of the shepherds, His circumcision, and His presentation at the Temple. After a space of potentially one to two years, we have the Wise Men's visit. We have further His trip to Egypt, His return to Nazareth, and then His visit to Jerusalem at the age of twelve. After this, the Gospel records are silent until we arrive at the beginning of His public ministry which is identified at the age of 30.
